Stratiqa

SUMMARY

Version: 1.0

SYSTEM PHILOSOPHY

STRATIQA is not a dashboard.

STRATIQA is an AI-Powered Business Operating System.

The system continuously:

Observe ↓ Understand ↓ Reason ↓ Recommend ↓ Learn

This cycle runs throughout the platform.

HIGH LEVEL WORKFLOW

User ↓ Authentication ↓ Organization Selection ↓ Business Discovery ↓ Memory Creation ↓ Knowledge Graph Generation ↓ Dashboard Initialization ↓ Continuous Monitoring ↓ Recommendations ↓ Learning & Improvement

WORKFLOW 1 — USER REGISTRATION

User Creates Account

Required Fields: - Name - Email - Password

System Actions: - Hash Password - Create User - Generate Session - Send Verification Email

Output: Authenticated User

WORKFLOW 2 — ORGANIZATION CREATION

User Creates Organization

Inputs: - Organization Name - Industry - Business Type - Company Size - Country - Timezone

System Actions: - Create Organization - Link User - Assign Owner Role

Output: Organization Workspace

WORKFLOW 3 — BUSINESS DISCOVERY ENGINE

Purpose: Allow STRATIQA to understand the business.

Phase 1 — Founder Interview Questions: What industry are you in? How do you generate revenue? What are your goals? How many employees do you have? What systems do you currently use?

Phase 2 — Data Collection Supported Sources: - CSV - Excel - PostgreSQL - MySQL - MongoDB - APIs - Google Sheets

Phase 3 — AI Analysis STRATIQA analyzes: - Revenue Streams - Departments - Customers - Products - Processes - Projects

Phase 4 — Business DNA Generation Output: Business Profile Risk Profile Growth Profile Operational Complexity

Phase 5 — Business Blueprint Creation Output: Complete organizational intelligence model.

WORKFLOW 4 — KNOWLEDGE GRAPH GENERATION

Input: Business Discovery Results

System Actions: Create Entities Examples: Customer Product Department Project Employee Supplier Create Relationships

Output: Business Knowledge Graph

WORKFLOW 5 — MEMORY INITIALIZATION

System Creates: Organization Memory User Memory Agent Memory Project Memory Decision Memory

Purpose: Enable long-term organizational learning.

WORKFLOW 6 — STRATIQA ONE ACTIVATION

STRATIQA One becomes operational.

Responsibilities: Monitor Business Coordinate Agents Generate Recommendations Track Outcomes Create Reports

WORKFLOW 7 — DASHBOARD INITIALIZATION

User Enters Platform

Landing Page: STRATIQA One Home

Displayed: Today's Priorities Risks Opportunities Goals Projects Recommendations Executive Brief

WORKFLOW 8 — CONTINUOUS MONITORING

Runs Continuously

Monitors: Revenue Projects Goals Customers Inventory Operations Support Products

Outputs: Alerts Insights Forecasts Recommendations

WORKFLOW 9 — AI AGENT WORKFLOW

Trigger: User Query OR Scheduled Analysis OR Risk Detection

Process: STRATIQA One ↓ Agent Selection ↓ Data Retrieval ↓ Reasoning ↓ Response Generation

Example Question: Why are sales decreasing?

System: Sales Agent ↓ Customer Data ↓ Inventory Data ↓ Marketing Data ↓ Analysis

Output: Root Cause + Recommendation

WORKFLOW 10 — RECOMMENDATION ENGINE

Input: Monitoring Results Agent Analysis Business Twin Results Historical Memory

Process: Context Retrieval Reasoning Impact Prediction Confidence Calculation

Output: Recommendation

Example: Inventory Shortage Detected Recommendation: Increase stock by 15% Expected Impact: Revenue Recovery Confidence: 88%

WORKFLOW 11 — RECOMMENDATION LEARNING LOOP

Recommendation Created ↓ User Accepts ↓ Outcome Tracked ↓ Result Measured ↓ Memory Updated ↓ Future Recommendations Improved

WORKFLOW 12 — PROJECT INTELLIGENCE

Project Created ↓ Tasks Generated ↓ Dependencies Mapped ↓ Progress Monitored ↓ Risk Detection ↓ Completion Forecast ↓ Executive Updates

WORKFLOW 13 — STRATEGIC GOAL ENGINE

Goal Created ↓ Projects Linked ↓ Tasks Linked ↓ Progress Measured ↓ Forecast Generated ↓ Goal Status Updated

WORKFLOW 14 — BUSINESS TWIN WORKFLOW

User Creates Scenario Example: Increase Marketing Budget ↓ Simulation Engine ↓ Business Twin Analysis ↓ Forecast Generation ↓ Risk Analysis ↓ Result Visualization

Output: Revenue Impact Growth Impact Profit Impact Risk Impact

WORKFLOW 15 — CUSTOMER INTELLIGENCE

Customer Data ↓ Health Analysis ↓ Sentiment Analysis ↓ Churn Prediction ↓ Customer Insights

Output: Retention Recommendations

WORKFLOW 16 — PRODUCT INTELLIGENCE

Product Data ↓ Sales Analysis ↓ Inventory Analysis ↓ Demand Forecasting ↓ Product Recommendations

Output: Inventory Actions Growth Opportunities

WORKFLOW 17 — FAILURE INTELLIGENCE

Failure Occurs ↓ Failure Recorded ↓ Root Cause Analysis ↓ Resolution Suggested ↓ Knowledge Stored ↓ Future Prevention

WORKFLOW 18 — MORNING EXECUTIVE BRIEF

Runs Daily

Inputs: Goals Projects Risks KPIs Recommendations

Output: Morning Executive Brief

Contains: Top Priorities Risks Opportunities Actions Required

WORKFLOW 19 — EVENING EXECUTIVE BRIEF

Runs Daily

Inputs: Daily Activity Projects Goals Incidents Recommendations

Output: Evening Summary

Contains: Achievements Issues Learnings Tomorrow Priorities

WORKFLOW 20 — REPORT GENERATION

Trigger: Manual OR Scheduled

Process: Data Collection ↓ Analytics ↓ Charts ↓ Insights ↓ Recommendations ↓ PDF Generation

Output: Executive Report

WORKFLOW 21 — EXECUTIVE WAR ROOM

Purpose: Provide a single strategic command center.

Aggregates: Projects Goals Risks Forecasts Recommendations Business Twin Insights Executive Briefs

Output: Real-Time Executive Workspace

WORKFLOW 22 — ORGANIZATIONAL LEARNING CYCLE

Business Event ↓ Analysis ↓ Recommendation ↓ Outcome ↓ Memory Update ↓ Knowledge Graph Update ↓ STRATIQA Improvement

This workflow never stops.

END STATE

STRATIQA continuously evolves from: Business Data to Business Knowledge to Business Intelligence to Business Strategy to Business Execution Support
